**NOTEWORTHY FACTS**

- Total golf course property: 160 acres.
- There are 9 acres of lakes and wetlands.
- Nearly half of the total acres, 73 of the 160 acres, were left natural or were re-naturalized.
- The **Lewis' Woodpecker** is currently on the watch list for endangered species. We are working with the East Cascades Audubon Society to help improve their nesting potential by placing bird boxes in strategic locations around the resort.
- We have placed 80 bird boxes available for Bluebirds and Swallows around the resort, along with bat boxes and snags (*downed trees*) as habitats.
